

COMPANY FACT SHEET

Business area

Development, production and sale of devices for biotech industry

Core competencies

- Sampling systems to connect every type of bioreactor with every analytical instrument
- Disposable components (e.g. connectors)
- Bioreactors and fermentors
- Engineering
- Consulting

Founded

May 2008

Employees

7

Locations

Magdeburg (laboratory), Wildau (headquarter)

Products

- Sampling system bioPROBE MK1
- Cooling autosampler CoolSam MK1

Management

Bernd-Ulrich Wilhelm, Chief Executive Officer
former head of R&D of Sartorius BBI Systems
Melsungen

Dr. Heiner Sann, Chief Scientific Officer
inventor of the the sampling system
